Matt was amazing. He went above and beyond to find the part for my pool heater on the same day instead of pushing me to the next day. I really appreciated his work ethic and skill! Would definitely recommend Matt @ J&J Pools for future pool issues!

Matt called before he came so that I could leave work and meet him at the house. He discovered the issue quickly and didn't have any issues with my questions about how the system worked and what was going on with my system. He was done quickly and we are ready to swim again. Thanks Matt!

I called my home warranty company and they sent JNJ POOLS. JNJ contacted me and came the very next day. The technician was friendly, courteous and very knowledgeable. He quickly assessed every problem and repaired all that he could. He needed to locate a replacement tank for our leaky one that had a crack in it, and to my surprise he came back just a few hours later and replaced the tank with a new one. I will definitely recommend JNJ POOLS to anyone who needs timely, courteous and professional pool service.

We received prompt and professional service from JNJ Pools. The customer service is excellent and our technician, Matt did a great, quick job today. Matt even took time to give us an estimate on a new pool pump option including how to get rebates for this item. Above and beyond. Very pleased with this service.

Our pool float went out and was overflowing the pool. Matt was the tech who came out. He was very quick, professional and explained to me everything he was doing and what steps we needed to take after the service. Very glad we were able to have him and JNJ Pools, Inc help us.

I had to have my pool heater replaced, as well have the water changed and the scale removed from the interior of the pool and tiles. I found Sean to be extremely personable and professional. He gave me a schedule and he stuck to it--all the work was completed precisely when he said it would be. I will certainly use his services again in the future and recommend him without question to anyone needing work on their pool.

Called by our warranty company and they responded immediately with an appointment time that was sooner than expected. The tech was able to explain the trouble he found and helped to resolve the issue which in our case was a simple adjustment. We also discussed possible replacement options for the pool heater and his advice was helpful. His attitude was one of a service person and not a sales person. I would not hesitate to call JNJ out again for future needs.

My homeowner's warranty company sent out JNJ pools to solve a problem for me with my pool pump Today Matt C Came out And solved a very rare and technical problem with my impeller . it took about just less than 2 hours but he never gave up and I really appreciate that because he did excellent work for me and gor keeping a good name for his company. I hope his bosses appreciate his performance as much as I do. I can't say enough about Matt C and J and J pools and thank you so much For taking care of my problem. Damn those palm tree seeds! Lol!!
